

This Earth Day, help a park and make a difference.

California state parks give us monumental scenery, ancient forests and priceless historic sites. But because of severe budget cuts and service reductions, these magnificent resources need significant repairs and maintenance.

Join us on Saturday, April 13 for California State Parks Foundation's 16th Annual Earth Day Restoration and Cleanup sponsored by Edison International. Volunteers are needed at Malibu Creek State Park, San Onofre State Beach and California Citrus State Historic Park.

To register to volunteer, visit calparks.org or call 1-888-98-PARKS.

Thank you to our regional sponsor for making this event possible.
